CONDITIONS OF SALE.

Please Read Sale Terms Before Bidding.

This is a bona-fide public sale, for prompt cash settlement, and irresponsible persons who are not sure whether they can pay for what they bid on, are asked not to bid. The cataloguer has taken special pains to describe each lot accurately. Errors will be corrected, but he reserves the sole right to decide upon any claims. No corrections or refunds will be made, and no lots can be returned, unless the bidder submits his case in writing **within 30 days of the date of the sale.**

Coins and medals are sold at so much per **PIECE**, and no lot will be separated. You cannot buy a few pieces out of a lot but must buy all of it. The auctioneer will accept no bid under 10 cents to start a lot where that lot contains only one piece; nor will he accept any advance under 5c on any lot containing but one piece; after the price has reached \$2. no advance under 10c will be accepted on any lot containing one piece; after \$5.00 the bid must advance 25c each time; after \$10 no bid under 50c.

Our rules regarding lots containing more than one piece will remain unchanged and the same as before.

Auction sales are **strictly for cash**. Parties unknown to me and bidding for the first time, must give bank or other reliable reference, or their bids will not be executed.

Forward your bids as early as possible, as thousands of bids have to be entered. Do not make ridiculously low bids, such as 10c. and 15c. on foreign silver coins worth several times over as bullion. Write your bids plainly, with a pen if practicable.

Where the number of pieces in a lot is not given after the description, there is but one piece in the lot.

Be sure you bid on the lot you wish to buy. We cannot correct such errors.

All coins, etc., are genuine unless otherwise described.

A charge of 5% will be made to cover packing but where the parcel is bulky an additional packing charge will be made. No charge made for bidding except for lots actually purchased. Remit by money order or New York draft.

If any further information is required as to valuation of lots, or how to bid, please write the cataloguer, **THOMAS L. ELDER.**

Important Notice. We keep two books of the sale recording each lot as sold, and we will not accept any sale records from outsiders. **Our records are final.**

No priced catalogue will be furnished of this sale.

FOREWORD.

We have never offered collectors a sale where the material was more largely varied and more interesting than in this one. You see offered herein everything from the tiniest copper coin, of the denomination of not over one sixteenth of a cent to the immense Cart-wheel two pence, and from the smallest silver coin to double crowns. In gold we offer everything from the tiny quarter dollar of California to the twenty dollar gold pieces. Included are choice ancient and modern foreign silver coins, as well as rare early U. S. Half and Quarter Eagles, Three and One Dollar Gold Coins. The offerings of Ancient silver and bronze coins is large, some being offered in each session. There is a U. S. Cent collection to please the fastidious, fine American Colonials and United States Silver coins. Pine Tree Shillings and coins of smaller denominations in all metals. Foreign silver is noted in the greatest variety, proclamations, cut money and other oddities as well as pattern coins both American and foreign. There is a splendid collection of masonic medals and tokens collected by the late Wm. Poillon, a noted mason and collector. A fine series of English silver and bronze coins, and a fine group of the interesting Gun Money of James II. of Ireland, adds to the interest of the sale. Curios, fine Paper Money, Gems, Stone Age Relics, Old Newspapers, Books and other curios are listed. We hope you will go carefully over the catalogue, feeling certain you will find many items which could be with advantage added to your collection. Not less than twenty different persons have consigned lots for this sale. It is useless to repeat the list. Suffice it to say you will surely secure some good lots if you will favor us with your bids. Be sure to bid on the right lots as we cannot possibly stand any loss entailed through errors in writing your bids. We have bidders making errors of this kind at every sale although we continuously keep calling their attention to the matter. Such errors keep us constantly worried and we usually have to prove the errors by returning the bid sheets.

New York, Sept. 22, 1926.

BIDDERS KINDLY NOTE.

For bidders who are new in attending our sales, we announce the following additional terms, which go into effect with this sale:

1. No lots will be shown or delivered during the progress of the sale.
2. No lots will be delivered on bills made out by bidders. Collectors must not pick out their own lots.
3. No lots will be put up out of order. We have had several serious experiences with this breach of the rules recently and positively will not put up a lot out of order for anyone. It will be to your own advantage to adhere to this rule.
4. If the auctioneer should fail to see the signal of a collector who is making an honest effort to bid—who has proof of his effort—the lot shall be again put up even if the auctioneer has knocked it down. Such claim must be made, however, at the time the lot is being offered.
5. The best way to make your bid is audibly and not by signal. Many lots are lost through finger bidding or by nodding the head. Bid aloud, naming the figures and your bid won't be lost.
6. We keep two books of the sale, so our records are invariably correct and must be accepted by room bidders.
7. Will new distant bidders kindly furnish us with bank or other indisputable reference? Club or society memberships not accepted as references. It is needless and unfair for anyone to refuse us reference, or to feel hurt because we request it.
8. We will not show our bid-book to any one.

VERY RARE RELICS OF THE LAKE DWELLERS OF SWITZERLAND.

These people, of very early origin, stated to have flourished from 5,000 to 7,000 years ago, lived in curious little houses on stilts over the Swiss Lakes, they were a race of fishermen and hunters, and did some little agricultural work, as their relics, chiefly in stone and deer horn, attest. Late dwellers had a knowledge of metals and used iron and bronze for implements. These were often discovered many feet under Roman ruins of thousands of years later, and Swiss Archaeologists like Tryon have fixed the dates given above. The owner had a small consignment at the American Art Galleries in 1918, which brought up to \$25 apiece. The Buck-horn implements belong to the earliest period.
